NTMA
of Northwestern Pennsylvania

Name: Jordan Walker

• Job Title:

Design Engineer

• Job Description:

Designs plastic injection molds

• Company you work for:

C&J Industries, Inc.

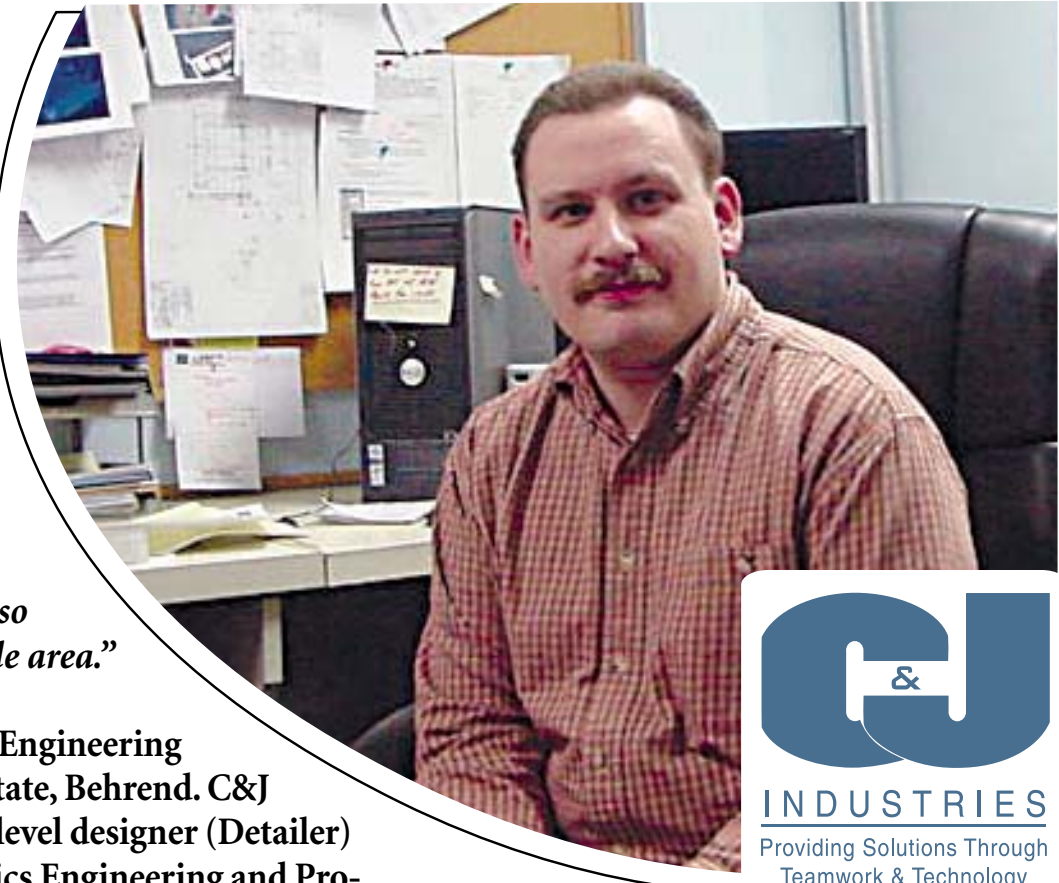

• Company Web site:

www.cjindustries.com

• Years worked in your trade: 5

• Why did you choose this field:

"I was looking for a stable, professional career with a mathematical background. I also wanted to stay in the Meadville area."

Jordan has a BS in Plastics Engineering Technology from Penn State, Behrend. C&J hired him as an entry-level designer (Detailer) because of his Plastics Engineering and Pro-Engineering design software background, as well as his strong work ethic. Jordan began with us in 2002 and has already moved up to the Design Engineer position. He has the potential to further his career as a Project Engineer. We value Jordan not only for the outstanding job he does, but also for his dedication. He is willing to put in the hours to get a job done.

Year company founded: 1962

Nominating person and title: Dennis Frampton, President

Reason for nomination: A good design is the first step in building an excellent tool. Jordan has strong design skills and has an excellent work ethic.

Did you Know...

The Northwest PA Chapter is one of 50 regional Chapters of the National Tooling and Machining Association. This trade association provides a wide variety of benefits to member metalworking companies. The local Chapter offers many benefits including networking and informational meetings, a marketing program, and a group Workers Compensation insurance program that saves members thousands of premium dollars. Nationally, NTMA provides a host of services including market forecast reports, operating cost analysis, OSHA consultation, employee handbook reviews, and business management advisories.
